**Embattled Arroyo Grande area immortalized in oil painting by renowned aviation artist Kristin Hill.**

While politicians, environmentalists, and citizens crowded into council chambers and coffee shops to debate the future of the Arroyo Grande state land, renowned aviation artist Kristin Hill dramatized those open spaces north of Oro Valley in a new painting, [\*Winds, Wires & Tales\*](#). Also in the painting is the recently-restored Great Lakes biplane featured in the book [\*Sticks & Wires & Cloth\*](#) by Anne Hopkins, Oro Valley resident.
